## The LA Good Times: Good Music.

### LINDA GOOD

We like her.

We like her music, which sounds like the beautiful bastard child of *Bitter:Sweet* and *Psapp!*

*Foolproof* reminds us of a lipstick commercial and makes us want to saunter moodily around the streets, puckering rouged lips at handsome strangers from beneath cafe umbrella's.

*Life is a Ride* makes us want to head out with girlfriends for a day of flirting in the sun at some snooty hotel bar. All the gentlemen will be like "Ohh la la-who are these carefree girls that have evaded our snooty hotel bar?"

Finally, *Love Is*, makes us want to sit in a coffee shop and write tales in our journal of love and loss and like...and how we have a hard time telling the difference between all three.

*We want to know where and when we can nab cd!*
