

## **Love Is...**

There are stars  
There are stars at the bottom of the sea  
There is you, there is me  
In an endless dream

There are books, there are words  
To describe this pain  
When I'm locked out of the house again  
If love is a speeding train  
Do you get out of the way?

**Love is...**  
**Love is a curious thing**  
**It's a magnet**  
**Pushing and pulling**

**Love is...**  
**Love is a curious thing**  
**It's your heart in a swing**  
**Is what love is**

It has wrapped me around  
Like a rattlesnake in the cold  
It is crying inside of the deepest hate  
Asking why did you go?

If there is love  
In the deepest vein in the earth  
Then there must be a flicker  
In the place where it hurts  
In your heart, in your heart  
So can you tell me where  
Tell me, tell me where

**Love is...**  
**Love is a curious thing**  
**It's a magnet**  
**Pushing and pulling**

**Love is...**  
**Love is a curious thing**  
**It's your heart in a swing**  
**Is what love is**

**Love is...**  
**Love is a curious thing**  
**It's a song we all should be singing**

## **Love is...**

**Love is a kick in the ass**  
**It's a blast**  
**It's your heart in a glass**  
**Is what love is...**

Let me go, pull me close,  
Let me in, push you out  
Keep me safe, lock you in,  
Then you turn back around  
Lift me up, pull you down,  
Dig it in, do us all, pull us up now  
As we awaken like a wave

Love is gonna come  
I can feel the vibration  
It makes me, oh, it makes me  
Put my hand up and say  
What the hell, come this way

**Love is...**  
**Love is a curious thing**  
**It's a magnet**  
**Pushing and pulling**

**Love is...**  
**Love is a curious thing**  
**It's your heart in a swing**  
**Is what love is**

**Love is...**  
**Love is a curious thing**  
**It's a song we all should be singing**

**Love is**  
**Love is a curious thing**  
**And if you've never felt the sting**  
**Then you don't know what love is**
